Note:

All changes to the 6000, 7000 and 8000 product lines are only bundled options, software, and pricing changes. The actual hardware codec is the same for each model in this translation table.

The new HDX 9000 models represent a hardware update that is different from the HDX 9002 and HDX 9004 codecs.

There are no changes to the HDX 4000 product line.
